- Dimensions cooking grill: L80 x P80
- Weight: 90 kg
- Supply: wood
- Finishing: Charcoal gray, Weathering steel

It is not just design!

Colorado is a professional wood-burning BBQ.

- Upper part: four stainless steel plates for food use
- The plate gets up to temperature quickly!
- In addition to the plate, it is possible to cook with a grill.

Models available: corten steel and charcoal gray.

COOKING ON THE PLATE

The upper part consists of four stainless steel plates for food use. You can cook excellent meat, tasty vegetables and much more, without the use of added fats.

COOKING ON THE GRILL

In addition to the plate, it is possible to cook twice using the grill.

This allows to you to cook multiple dishes and multiple types of food at the same time.

CHARACTERISTICS CORTEN STEEL

The characteristic of this type of steel is the ability to resist corrosion resulting from atmospheric agents (rain, snow, sun). A protective patina also protects it from the cooking fire.

This protective patina gives the steel particular aesthetic characteristics.

CORTEN STEEL ADVANTAGES

- 1) 10 times more resistant to corrosion than the normally steel
- 2) Aesthetic exclusivity
- 3) Very high resistance and long life
- 4) Sustainability

INTERNAL INSULATION

To preserve the painting, the barbecue has an internal insulation in rock wool on all 4 sides.

In addition, there are holes on the fire grate to allow the fire to feed optimally.

EASE OF CLEANING

Cleaning the barbecue is very easy. It will be sufficient to open the ash drawer and collect all the ash generated during cooking.
