A BARBEUE AT THE HIGHEST LEVELS

Thanks to the Corten steel, the barbecue has a very high resistance.

WHY CHOOSE CORTEN?

Corten is a sustainable material due to its durability, limited maintenance, and its unlimited possibility of being recycled, keeping any property unchanged, in full respect of the environment.

CHARACTERISTICS CORTEN STEEL

The characteristic of this type of steel is the ability to resist corrosion resulting from atmospheric agents (rain, snow, sun). A protective patina also protects it from the cooking fire.

This protective patina gives the steel particular aesthetic characteristics.

Thanks to the wheels the barbecue is easily transportable.
